Dell Optimizer
We make it intelligent. You make it yours.

In a work-from-anywhere world, powering the world’s most intelligent commercial PCs* is not enough, Dell Optimizer is extending personalized intelligence to the rest of the Dell ecosystem.

Dell Optimizer lets you accomplish anything with built-in intelligence that learns and adapts to the way you work.

Elevate everyday work with personalized performance extending from your Latitude to the devices within your workspace.

---

**An intelligent ecosystem**
Enjoy easy pairing and management of your Dell monitors and accessories with the integration of Dell Display Manager and Dell Peripheral Manager.

---

**Up level audio**
Intelligent Audio delivers sound and mic enhancements reducing background noise using neural noise cancellation and voice quality monitoring.

---

**Intelligent privacy anywhere**
This technology lets you texturize your screen when an intruder is detected and dims your PC when you look away. It also wakes your PC when your approach and locks it when you walk away.

---

**Extended power**
ExpressCharge analyzes your power usage habits to improve PC battery utilization and extends run times by charging your system faster when you need a boost in power.

---

**Unmatched connectivity**
ExpressConnect* provides the world’s first simultaneous multinetwork connection** that joins the best network* available.

---

**Improved app performance**
Analyzes how you use your preferred apps to boost performance.

---

With Dell Optimizer, optimization and data collection follow a stringent process to ensure your privacy and security.

Make yourself more resilient to cyberattacks with Dell Trusted Devices.

Attacks are inevitable. In fact, 69% of organizations report a cyber-attack due to a poorly managed internet-facing asset in the prior 12 months.* Dell Technologies understands that today’s security challenges include managing an evolving threat landscape with a modern work environment in mind. With Dell commercial devices, catch and repel malicious activity before it compromises your system. Latitude, one of the industry’s most secure commercial PCs**, offers layers of security features to keep you protected and give you visibility to threats for swift action.

Secure anywhere-work with hardware and firmware defenses built for our hyper-distributed world.

Stay protected from evolving threats
Our unique BIOS and firmware verification provides greater security than other PCs. Assess a corrupt BIOS, repair it and gain insights that reduce exposure to future threats.

Spot ticking timebombs
Indicators of Attack, an early-alert feature offered only by Dell, scans for behavior-based threats before they can do damage.

Detect chassis tampering
Detect unauthorized access, e.g., malicious implanted hardware or software, data/component theft inside system chassis.

Secure end user credentials
SafeID, a dedicated FIPS Level 3 certified security chip, keeps user credentials hidden from malware.

Be safe from first boot
Rigorous, state-of-the-art supply chain controls reduce the risk of product tampering. Optional addons like the Dell-unique Secured Component Verification provide additional assurance of device integrity.

Protect data everywhere
Stay protected against advanced threats with optional software-based protections from our ecosystem of best-of-breeds partners (CrowdStrike, VMware Carbon Black, Secureworks, Netskope and Absolute).

**Disclaimer:** Simultaneous multi-network connection (or Connection based teaming) is a new connectivity feature under ExpressConnect. It simultaneously sends and receives data and video traffic using two or more wired or wireless connections. Simultaneous multi-network connection works with wired and wireless networks. For select Dell platforms, a USB Wi-Fi adapter is required to connect a second Wi-Fi network. Based on Dell internal analysis, September 2021.

1. Offering may vary by country and by configuration and operating system.
2. A 64-bit operating system is required to support 4GB or more of system memory.
3. GB means 1 billion bytes and TB equals 1 trillion bytes; actual capacity varies with preloaded material and operating environment and will be less.
4. Limited Hardware Warranty: For copy of Limited Hardware Warranty, write Dell USA LP; Attn: Warranties, One Dell Way, Round Rock, TX 78682 or see dell.com/warranty.
5. The stated Watt Hour (Whr) is not an indication of battery life. 6 The stated Watt Hour (Whr) is not an indication of battery life.
6. 7 Intel Rapid Storage Technology requires a HDD, mSATA, or an SSD, as primary storage device and Windows OS required.
7. 8 Wireless antenna available only at time of system purchase.
8. 9 Dell Latitude 7530/7430/7530 are brominated flame retardant free (BFR-free) and polyvinyl chloride free (PVC-free); meeting the definition of BFR-/PVC-free as set forth in the InEMI Position Statement on the Definition of Low-Halogen Electronics (BFR-/CFR-/PVC-free). Plastic parts contain less than 1,000 ppm (0.1%) of bromine (if the Br source is from BFRs) and less than 1,000 ppm (0.1%) of chlorine (if the Cl source is from CFRs or PVC or PVC copolymers). All printed circuit board (PCB) and substrate laminates contain bromine/chlorine total less than 1,500 ppm (0.19%) with a maximum chlorine of 900 ppm (0.09%) and maximum bromine being 900 ppm (0.09%).
9. 10 4G LTE antenna and 5G available only at time of system purchase. Mobile Broadband Subject to service provider’s broadband subscription and coverage area; additional charges apply.
10. 11 Mail-in Service after Remote Diagnosis: Remote Diagnosis is determination by online/phone technician of cause of issue; may involve customer access to inside of system and multiple or extended sessions. If issue is covered by Limited Hardware Warranty (www.dell.com/warranty) and not resolved remotely, technician and/or part will be dispatched, usually within 1 business day following completion of Remote Diagnosis. Availability varies. Other conditions apply.
11. 12 Dell Services: Availability and terms of Dell Services vary by region. For more information, visit www.dell.com/service.descriptions.
12. 13 GB means 1 billion bytes and TB equals 1 trillion bytes; significant system memory may be used to support graphics, depending on system memory size and other factors.
13. 14 Weights vary depending on configuration and manufacturing variability; 0.990 kg configurability: up to i7 vPro (U15), FHD NT Ultralight LCD, WLAN, 41Whr battery, M.2 2230 class 35 SSD, No security, non-backlit KB.
15. 16 Simultaneous multi-network connection (or connection-based teaming) is a new connectivity feature under ExpressConnect. It simultaneously sends and receives data and video traffic using two or more wired or wireless connections. Based on Dell internal analysis, October 2021.
16. 17 EPEAT registered where applicable. EPEAT registration varies by country. For more information, visit www.epeat.net for registration status by country.
17. 18 Based on Dell analysis of battery life usage model calculations, Nov. 2020. Results vary depending on use, operating conditions and other factors.
18. 19 Based on Dell internal analysis, October 2022.
19. 20 Based on Dell internal analysis, October 2022.
20. 21 New packaging is made with up to 40.8% recycled content and up to 64.4% renewable content in the form of renewable paper fibers. Material makeup varies by product and size. Excludes optional items added to order and included in box. Paper packaging materials can be recycled via municipal recycling, where available. System bag is made from recycled plastic and can be recycled along with other thin plastics.
21. 22 WiFi 6E requires Windows 11 Operating system and compatible router. Router requires a separate purchase. WiFi 6E connectivity is only available in select locations. Check availability with your service provider.
22. 23 ExpressCharge with Dell Optimizer (DO) requires 14 days to learn the user’s behavior, then dynamically applies appropriate battery settings. DO Adaptive Battery setting must be enabled in the Power feature settings labeled "Adaptive Battery Performance". Improvement will vary based on product configuration, use, software, operating conditions, power management settings and other factors. Improvements may decrease over time. System performance may be impacted. ExpressCharge can recharge system battery from 0% up to 80% within 60 minutes. After charging has reached 80% capacity, charging speed will return to normal speed. Recommended for use with the provided Dell power adapter; not recommended with a smaller capacity power adapter. Charging time may vary +/-10% due to system tolerance.
23. 24 7540 is 53% larger than prior generation, 7440 is 24% larger than prior generation, and 7640 is 20% larger than prior 15.6" generation. Based on Dell internal analysis, November 2022.
25. 26 Based on an independent user study of 20 experienced webcam users commissioned by Dell. Participants evaluated the brightness, color saturation and sharpness of live web meeting video streamed with the Dell UltraSharp webcam and leading competitive external 4K personal conferencing webcams in uniform, low and high contrast lighting conditions (No physical webcams nor brands were shown to participants) (June 2021).
26. 27 For Qi-enabled smartphones and earbuds. Based on analysis of competitive products, using publicly available data – November 2021.
27. 28 Based on Dell analysis comparing against competitive personal conferencing speakers and headphones. September 2021.
28. 29 Based on Dell analysis of battery life usage model calculations, Nov. 2020. Results vary depending on use, operating conditions and other factors.
29. 30 Dell follows the standard USB-C protocols, full functionality with other brands of USB-C laptops may differ.
30. 31 The Bluetooth wireless card version may vary depending on the operating system that is installed on your computer.
